Sponsor the Workshop

The Pittsburgh Perl Workshop is a low cost, one day conference to be held in the University Center on Carnegie Mellon University's Oakland Campus. The event is scheduled for **September 23 2006**. Sponsors are very important to the success of the workshop. Get involved and consider the following sponsorship options.

Provide a Room

Obligation: \$1000

There are two rooms being used by the workshop. A larger room hosts the beginners' track while a smaller room hosts the advanced track. When you sponsor a room it will be named after your organization. Attendees will ask one another, "Are you going to the **ACME Corp** room?"

Provide Food

Obligation: \$500 to \$3000 in \$500 increments

Food and drinks will be provided throughout the day. On-site meals and refreshments reduce distractions for attendees during the conference and increase networking opportunities between them. When you sponsor food, a banner promoting your organization is prominently displayed in gathering areas. Attendees will say to one another, "**ACME Corp** provided this coffee. That's hot."

Provide a Donation

Obligation: At your discretion

The workshop's expenses are not limited to facilities and food. We greatly appreciate any contribution that benefits our attendees by allowing us to create a wonderful conference atmosphere.
